OBSERVATIONS

carly in the campaign and be didn't get enough votes to wad a shotgan.

The election does establish the fact that the people of the city are sick and tired of the political ranting of The Times and The Examiner. Their ballots were eloquent on the Times and The Examiner. Their ballots were eloquent on the Times and The Examiner. Their ballots were eloquent on the first and the Examiner. Their ballots were eloquent on the first and the Examiner. Their ballots were eloquent on the first and whose ambition they know to be no more than to make a living by printing and circulating neighborhood news.

It takes positions a long time to fearn their lessons, it was the small press of the state that elected Friend Richardson. After that demonstration of the power of the small papers one would have thought the wise boys would have taken heed. But they didn't. The "powers" left open to Porter, whom they Roped most to defeat, the channel of the small press and he swars up that channel to victory.

The campaign now on between Porter and Bonelli will find both candidates concentrating mightly efforts to win the support of the papers in Hellywood. Wilmington, Sam Pedro, Venice, Watts, the San Fernando Valley and such city neighborhood weeklies as the strong Southwest Topics, the West Adams Tribune and others:

This legislature opens. Lobblysits employed by big interests meet at a hotel. They go over their program. Lumber lobbyists wants Bill No. 420 passed. Power lobbyist wants Bill No. 320 killed. And as on. They pool their interests and the middle of the more on their "friends" in the House and Senart. Each works on his "friends" in the house and Senart. Each works on his "friends" in the house and Senart. Each works on his "friends" in the subset of the senart set to tirst base when he goes to Sacramento after essential legislation.

A well-known lobbyist once told me that with enough bonded liquor he could hait any bill in committee or get it recommended out.

SUPPOSE you are today, paying 50c a tube for your tooth paste (and there are many very good denti-frices selling today at that price).

rices selling today at that price).

Suppose, like most people, you buy about twelve tubes during a year. Now if you knew that you could buy as good a dentifice as can be made and still save-each year the price of 25 loaves of bread or 60 bars of soap or 40 pounds of sugar or a box of fine cigars—could you conscientiously fail to, take advantage of such an opportunity!

That is exactly what you do when you buy Listering Tooth Paste at 25c for a large tube, Figure it out for yourself.
